

EXP NO: 2	AZURE DEVOPS PROJECT SETUP AND USER STORY MANAGEMENT
-----------	---

Aim:

To set up an Azure DevOps project for efficient collaboration and agile work management.

1.Create An Azure Account

2.Create the First Project in Your Organization

- After the organization is set up, you'll need to create your first **project**. This is where you'll begin to manage code, pipelines, work items, and more.
- On the organization's **Home page**, click on the **New Project** button.
- Enter the project name, description, and visibility options: **Name:** Choose a name for the project (e.g., **LMS**).
Description: Optionally, add a description to provide more context about the project.
Visibility: Choose whether you want the project to be **Private** (accessible only to those invited) or **Public** (accessible to anyone).
- Once you've filled out the details, click **Create** to set up your first project.

3.Once logged in, ensure you are in the correct organization. If you're part of multiple organizations, you can switch between them from the top left corner (next to your user profile). Click on the Organization name, and you should be taken to the Azure DevOps Organization Home page.

4. Project dashboard

5. To manage user stories:

a. From the **left-hand navigation menu**, click on **Boards**. This will take you to the main **Boards** page, where you can manage work items, backlogs, and sprints.

b. On the **work items** page, you'll see the option to **Add a work item** at the top. Alternatively, you can find a + button or **Add New Work Item** depending on the view you're in. From the **Add work item** dropdown, select **User Story**. This will open a form to enter details for the new User Story.

The screenshot displays the Azure DevOps web interface. At the top, there is a search bar and a navigation menu. The main header area includes the Microsoft logo, a 'Sign out' button, and the user's profile information for 'Kishore raj' (kishoreraj.as.2024.aids@rajala...). Below the profile, there is a 'Sign in with a different account' button. The left sidebar contains a 'New Work Item' button and a list of work items. The right sidebar shows the 'Sprint 1' view with the text 'No work scheduled yet' and a 'New Sprint' button.
