

EXP NO: 5

POKER ESTIMATION

Aim:

Create Poker Estimation for the user stories - Music Playlist Batch Creator Project.

PokerEstimation

The screenshot displays a User Story (ID: 47) in the Azure DevOps interface. The story is titled "As a user i should be able to create audio playlist as i need" and is assigned to Karthick S. The story is currently in the "Resolved" state. The interface includes several tabs for managing the story: Description, Acceptance Criteria, Discussion, Planning, Classification, Deployment, Development, and Related Work. The Planning tab is active, showing a Story Points of 3, a Priority of 2, and a Risk level. The Classification tab shows a Value area of Business. The Deployment tab provides instructions on how to track releases associated with this work item. The Development tab offers a link to add an Azure Repos commit, pull request, or branch. The Related Work tab shows a parent work item titled "26 Auto-Playlist Creation Based on user preference" which was updated on Feb 18.
